

KIMBERLY DYER

KIMBERLY IS AN EXPERT IN BUSINESS AND PROCESS MANAGEMENT

Kimberly Dyer turns organizational complexity into clarity, alignment and sustainable productivity—using EOS, Kolbe and Six Working Genius to align the business, the work and the people.

Kimberly has given talks and workshops for COSE Small Business Conference, Precision Metalworking Association (PMA), Ohio Society of Executives (OSAE), Vistage, Goldman Sachs 10,000 Small Business, Denison University, and the Ohio Funeral Directors Association.

> *Our members wear many hats and can sometimes get stuck in their day-to-day responsibilities. Kimberly joined us at our annual conference BizConCLE and shared six easy- to-implement ideas to help them get their businesses on track. We received great reviews from her session and were thrilled to have Kimberly share EOS® principles with our members. Kimberly was a dream to work with. I hope I have the opportunity to work with her again in the near future!*
